

System – Solver: a freeware tool for mathematical modeling of dynamical systems

How to install System – Solver

By Efraín Domínguez & Santiago Bustamante

System Solver is an easy to install and easy to use application. To use *System – Solver* please follow next steps:

- 1) Be sure the Java Virtual Machine is installed and running on your PC. If not, download and install it from: <http://www.java.com/en/download/manual.jsp>
- 2) Download the *System - Solver* application using the following link: http://mathmodelling.googlepages.com/sys solver_download;
- 3) Unzip the downloaded installer in your preferred catalogue;
- 4) Run the file **SystemSolver.jar** ;
- 5) Follow the examples at the *System - Solver* web site;
- 6) Enjoy it!
